STRATEGIC PLAN

VISION

**Inspiring hope for
Saskatchewan patients**

MISSION

**Advance patient care by
providing innovative education,
research, and clinical service**

To our patients:

We offer the best possible medical care.

To our students and residents:

As role models for future clinicians and scientists,
we offer quality programming and a supportive learning environment.

To our department members:

We support, develop and engage all members to foster a mutually
beneficial relationship and a common sense of purpose.

To Saskatchewan:

We collaborate, engage and innovate to address medical needs.

STRATEGIC PRIORITIES

The Department of Medicine will focus on the following strategic priority areas.

Empower and engage members

Support, develop and engage members to foster a mutually beneficial relationship and common sense of purpose

Innovative patient care

Apply innovative and practical interventions to support quality patient care and safety across the province

Quality education

Ensure quality methods to graduate clinicians and scientists with the appropriate skills in education and research

Research and innovation

Foster an environment where research can excel
