Introduction
The role of the Postgraduate Medical Education Office (PGME) is one of coordination, with residents, teaching hospitals, and with all of our programs. The PGME Office has a number of important roles which include:

- **Educational activities**
  - Working with programs to ensure compliance with standards of accreditation (Royal College or Family Medicine) and seeking to improve the quality of our training programs
  - Administration / organization of certain courses, programs and resources that are college-wide rather than program-specific
  - Assistance to residents and programs in developing enhanced learning programs / obtaining resources for residents who are experiencing academic difficulties
  - Management of educational leaves
  - Management of out-of-province electives

- **Human Resource activities**
  - Providing information to the payroll office for salary, on call stipends and other financial remuneration
  - Administration of leaves

- **Professional activities**
  - CMPA coverage
  - Educational licenses
  - Review and approval of moonlighting requests
  - Transfer procedures

This is only a short list of the activities the PGME Office undertakes on behalf of residents. We can be more effective in meeting your needs if you consult us early should any issues or concerns arise during your residency training. If you don’t know – just ask! We can do much to assist you if problems arise and our goal is always to help support you in achieving a successful and fulfilling residency training program.

Resident Handbook
The purpose of this handbook is to provide you with general reference information and policies, procedures and guidelines related to your residency training.

The resident handbook is available online only and is updated as new information becomes available.

If you should have any questions with respect to items in this handbook, please contact the Postgraduate Medical Education Office.
Contact Information

**Postgraduate Medical Education**

Dr. Anurag Saxena  
Associate Dean, Postgraduate Medical Education  
Phone: (306) 966-5557  
anurag.saxena@usask.ca

Janine Corbett  
Clerical Assistant, PGME Electives (St. Paul’s Hospital)  
Phone: (306) 655-5004 / Fax: (306) 655-5794  
janine.corbett@saskatoonhealthregion.ca

Jennifer Dybvig  
Clerical Assistant, Residency Payments & Processing  
Phone: (306) 966-1864  
jennifer.dybvig@usask.ca

Audrey Kincaid  
Clerical Assistant, Admissions, Resident Administration & Accreditation  
Phone: (306) 966-5536  
audrey.kincaid@usask.ca

Maureen Lumbis (effective August 27, 2015)  
Clerical Assistant, IMG Orientation/Assessment & Educational Programs  
Phone: (306) 966-1640  
maureen.lumbis@usask.ca

Sonja Lazic  
Clerical Assistant, Reception & Resident Resources  
Phone: (306) 966-8555  
sonja.lazic@usask.ca

Lindsay Katz  
Coordinator, Resident Resources  
Phone: (306) 966-2605  
lindsay.katz@usask.ca

Ope Okunola  
Coordinator, IMG Orientation/Assessment & Educational Programs  
Phone: (306) 966-8417  
ope.okunola@usask.ca

Reola Mathieu  
Clerical Assistant, Administration  
Phone: (306) 966-5557  
reola.mathieu@usask.ca

Shelley McIntyre  
Manager, Accreditation & PGME Operations  
Phone: (306) 966-2498  
shelley.mcintyre@usask.ca

Betty Rohr  
Coordinator, Education & Metrics  
Phone: (306) 966-8548  
betty.rohr@usask.ca

Debbie Spence  
Coordinator, PGME Policies & Resident Assessment Processes  
Phone: (306) 966-6145  
debbie.spence@usask.ca

Della Toews  
Coordinator, Admissions & Resident Administration  
Phone: (306) 966-1941  
della.toews@usask.ca

**College of Medicine**

Dr. Preston Smith  
Dean of Medicine  
Phone: (306) 966-6149  
preston.smith@usask.ca

Chelsea Platzke  
Manager, Human Resources  
Phone: (306) 966-2932

Accommodations at Distributed Sites

Accommodations are provided at no cost to residents who leave their home site to complete short term mandatory rotations at distributed sites in Saskatchewan. Please review the following information to learn more about reserving accommodations in advance of your rotation.

Moose Jaw

Please contact Erin Kell at erin.kell@fhhr.ca to confirm if rotations and accommodations can be arranged for the requested dates.

North Battleford

If you require accommodations in North Battleford, please contact Michelle Coakwell in the Department of Family Medicine office at (306) 446-8631 or michelle.coakwell@pnrha.ca.

Prince Albert

If you require accommodations in Prince Albert, please contact Nicole Toutant in the College of Medicine, Prince Albert office at (306) 765-6787 or nicole.toutant@usask.ca.

Regina

Shared housing is provided for residents assigned to short term mandatory rotations in Regina. Residents are assigned to one of four 4-bedroom apartments located on the sixth floor of the North Residence Tower on the University of Regina campus.

The U of R accommodations are also available to residents undertaking electives in Regina; however, the accommodations are provided based on availability and on a cost recovery basis.

Family accommodations are provided by the Regina Qu’Appelle Health Region for residents who meet the eligibility criteria.

The College of Medicine, Regina office provides the PGME office with a list of residents who are undertaking mandatory rotations in Regina for the academic year. The PGME office contacts residents approximately four to six weeks before their rotation commences to confirm if accommodations are required and if the resident has any special accommodation needs (e.g. family accommodations.) The PGME office will then arrange accommodations for residents as needed.

Please note that residents who choose to arrange their own accommodations in Regina will not be reimbursed for accommodation costs.

Saskatoon

The PGME office will arrange accommodations for residents who undertake short term mandatory rotations in Saskatoon. Accommodations are arranged on an individual basis and it is important for residents and/or programs to inform the PGME office of any required accommodations several months before the rotation commences in Saskatoon so suitable accommodations can be reserved.

ACLS

All new appointments to College of Medicine postgraduate training programs must have successfully completed an Advanced Cardiac Life Support (ACLS) course endorsed by the Heart and Stroke Foundation of Canada and/or the American Heart Association. Proof of current certification must be provided to the PGME office prior to commencement of the training program.
**Administrative Residents**

Each program will have one administrative resident position.

The duties assigned to the administrative resident represent the range of responsibilities that can be assigned by the Program Director. Since the number of persons and other factors vary among the departments and hospitals, it is recognized that in some situations the resident may not encompass each category. It is further recognized that the complexity of individual functions or tasks can vary among departments and/or hospitals but that no attempt will be made to alter the compensation due to these differences. Also, duties may be delegated in such a manner that two or more residents share the responsibilities.

**Duties of the Administrative Resident**

1. Liaison between faculty/staff and residents, including handling of complaints and concerns originating with the residents, faculty/staff or hospital administration.

2. Arrangement and preparation of call schedules, ward schedules and holidays to ensure appropriate coverage in the department at any given time.

3. Orientation of new residents.

4. Organization of case rounds and audit or ward charts.

5. Residency teaching round scheduling.

6. Subspecialty and grand round scheduling.

7. Undergraduate seminar scheduling.

8. Allocation of junior residents to consultants.

9. Arrange patient cases for undergraduate and postgraduate examinations.

10. Supervision and assessment of JURSI’s including the review of exams written by the JURSIS.

11. Supervise and coordinate the investigation and treatment of in-patients as directed by the attending physician.

12. Membership on the Residency Training Committee.

13. Assist in updating resource material in the department library.

14. Assist in selecting articles to be reviewed by residents at journal club meetings.

15. Additional duties that may be assigned from time to time by the Program Director.

**The Administrative Resident Stipend**

The Administrative Resident Stipend is paid twice a year – December and June. In the month prior to payment, administrative residents will receive notification that payment is about to be made and they will be asked to verify their administrative resident appointment and number of months of that appointment.

**Appointments/Reappointments**

Appointments and reappointments to training programs are made by the Postgraduate Medical Education Office upon the recommendation of the Program Director. All reappointments are subject to satisfactory completion of training in the previous academic year.
Assessment Guidelines
Click here to review the guiding principles for assessment of postgraduate trainees. This document also includes policies and procedures pertaining to: promotion and deferral of promotion, remediation, probation, dismissal and appeal.

Canadian Medical Association - Code of Ethics
To access the Canadian Medical Association code of ethics click here.

Canadian Medical Protective Association (CMPA)
Residents cannot commence training without CMPA membership. All residents working within Saskatchewan are required to be covered by CMPA for liability insurance. The cost of the coverage will be paid by the employer.

An application package will be provided to new residents to be returned to the Postgraduate Office along with their signed contract.

CMPA coverage for residents already in the program will be renewed each year by the PGME office.

You must be registered with the College of Physicians & Surgeons of Saskatchewan in order to be eligible for CMPA coverage. The College of Physicians and Surgeons will provide you with the required license number.

The resident is also responsible for ensuring that contact information with CMPA is always up to date. The resident must communicate changes regarding contact information directly with CMPA. The resident must also notify CMPA when training within Canada (e.g. electives, mandatory rotations) occurs outside of Saskatchewan.

Completion of Training
Residents completing their program are required to make sure all equipment (i.e. pagers, uniforms, keys, library books, etc.), parking passes, and any monies owing (library fees, transcript fees, etc.) are returned and/or paid before leaving the program. If a resident leaves and has not satisfactorily resolved these matters, measures may be taken by the appropriate department to ensure restitution.

Credentialing – Saskatchewan Health Regions
All residents must be eligible for and maintain privileges within a Saskatchewan Health Region as determined by its credentialing process. Residents who have not been previously credentialed will be required to submit a current criminal record check as part of their pre-resident application for appointment. Credentialing privileges for residents with criminal records will be considered on a case by case basis by the College of Medicine in consultation with the Health Region.

Elective Guidelines
To review the guidelines for setting up electives click here.

E-mail Policy
The Postgraduate Medical Education Office uses e-mail as the primary means of communication with residents. In accordance with the University of Saskatchewan’s E-mail Policy all residents are responsible for checking their university assigned e-mail address on a regular basis to receive information and respond to requests for information from our office. Students and residents are responsible for maintaining their U of S issued email accounts for communication with their programs and the College of Medicine.
Identification Badges

The College of Medicine, in cooperation with its affiliated hospitals throughout Saskatchewan, has implemented a standard means of identification for all residents. All residents are required to properly identify themselves at all times to hospital staff and patients.

Residents must go to Security Services at the Royal University Hospital to get photo ID when they commence training. Regina-based residents should contact the Regina College of Medicine office at Regina General Hospital for procedures in Regina hospitals.

Immigration

Residents who are not Canadian Citizens, Landed Immigrants or Permanent Residents require a work permit to train in Saskatchewan. The PGME office will provide the required documentation to residents so they can commence the application process to obtain a work permit.

The prospective resident is responsible for applying for a work permit from Citizenship and Immigration Canada (CIC). Click here for more information on how and where to apply for a work permit. It is important to apply promptly to avoid delays in processing the work permit and to avert any problems. The resident must present a valid work permit for the appointment period to the PGME office prior to commencement of the training program.

The work permit does not allow re-entry into Canada. It is the responsibility of the work permit holder to contact CIC regarding re-entry regulations and documentation required (visa, multi-entry visa) should they need to travel outside of Canada for any reason during the course of their training period (e.g. electives, vacation, conferences, etc.) to ensure they have the appropriate immigration documents allowing them to re-enter Canada without delay. Failure to do so, which results in a delay of their return to Canada, may require an extension of the resident’s training period to cover the time missed. It may also result in prorating monthly stipends to account for the unapproved leave period.

Immunizations

For the protection of the individual resident and their patients, all new appointments to College of Medicine postgraduate training programs are required to submit immunization records and proof of immunity (titres) to the health region(s) in which they will be working.

Saskatoon Regional Health Authority

Contacts: Natalie Haugan at (306) 655-0194 or nataliehaugan@saskatoonhealthregion.ca
Ashley Mann at (306) 655-0193 or ashley.mann@saskatoonhealthregion.ca

Regina Qu’Appelle Regional Health Authority

Cypress Regional Health Authority

Contact: Grant Browne, Medical Affairs Coordinator at (306) 778-9463 or grant.browne@cypressrha.ca

Five Hills Regional Health Authority

Contact: Erin Kell at (306) 691-7681 or erin.kell@fhhr.ca

Mamawetan Churchill River Regional Health Authority

Contact: David Stoll at Davidstoll@hotmail.com
**Internet Policy**

Residents must use professional conduct when accessing the internet or using computers which are the property of the University of Saskatchewan or Saskatoon Health Region. Click here to view U of S Information Technology policies as they related to computer use, e-mail use, etc.

**Leaves**

Residents should complete a Leave Request Authorization and Notification form for any type of leave. Leave requests should be submitted prior to the leave to ensure approval by the appropriate authorities. In circumstances where a resident must leave immediately, please ensure the Program Director is notified immediately and, upon your return, complete the leave request form.

Leaves of absences must be approved by the Assistant Dean, Postgraduate Medical Education.

The Postgraduate Medical Education Office must be notified immediately of any leaves. A staff member of the resident’s home program will meet with the resident to review leave options, requirements and expectations. Leaves other than those previously listed are leaves of absence and are unpaid leaves; therefore, the appropriate payroll adjustments must be made. The Postgraduate Medical Education Office will make notification of such leaves to the appropriate agencies (e.g. College of Physicians and Surgeons of Saskatchewan, Royal College of Physicians and Surgeons of Canada, College of Family Physicians of Canada, CMPA, SMA).

For any unpaid leave period, Dental and Extended Health Care coverage may be maintained provided the resident pays the premiums. Residents on a leave of absence are responsible for payment of disability and life insurance premiums.

**Licensure: College of Physicians and Surgeons of Saskatchewan**

In order to participate in postgraduate medical education, all residents must be registered on the Educational Register of the College of Physicians & Surgeons of Saskatchewan (CPSS). This also applies to residents already fully licensed in Saskatchewan. Failure to do so may result in loss of credit for training time spent in the program. Registration must be completed prior to commencement of training. New residents must obtain this licensure by attending a personal interview with the College of Physicians and Surgeons and provide required documentation.

The registration fee for registration on the educational register will be paid by the College of Medicine on behalf of each ministry funded resident.

In order to be eligible for CMPA coverage, residents must be registered with the College of Physicians & Surgeons of Saskatchewan. The College of Medicine will re-register those residents being reappointed to residency training with the College of Physicians & Surgeons of Saskatchewan.

Residents are responsible for ensuring that contact information with CPSS is always up to date. Residents must communicate changes regarding contact information directly with CPSS.

**Middle Day of a Long Weekend**

To apply for this benefit, the Middle Day of a Long Weekend form must be completed by the Administrative Resident and Program Director and submitted to the Postgraduate Medical Education Office with a copy of the call schedule attached. The on-call day will be verified.

**Moonlighting and Locums**

No Moonlighting applications are being accepted or renewed at this time. If you have any concerns or questions please call the PGME office at (306) 966-1864
Orientation

An orientation program for all new residents based in Saskatoon is held each year and is usually held on the first working day following the July 1 holiday, based on the University of Saskatchewan’s day off in lieu of the holiday. Attendance at the orientation is mandatory, as pertinent hospital procedures are discussed at this time. Please check with the College of Medicine Office in Regina with respect to Regina orientation.

Parking

Saskatoon
Residents based in Saskatoon should contact Parking Services (Room M1600 on RUH main mall near escalators or email: parking@saskatoonhealthregion.ca) for information on parking.

Regina
Residents based in Regina, or undertaking rotations in Regina, should contact the Regina College of Medicine Office for information on parking procedures at the Regina teaching hospitals.

Payroll

Payroll TD-1, TD1SK and bank direct deposit forms are sent to new residents in their appointment packages and are also available on the PGME website in the New Resident section. The completed forms must be submitted to the PGME office with the other required forms by the given deadline or as banking information changes. Failure to do so may result in the delay of the first month’s pay.

Personal Information Change

Updated contact information ensures that communication by the Postgraduate Medical Education Office reaches residents in timely manner. Residents who have changes to their contact information (e.g. name, address) must make these changes on PAWS in a timely manner. Any changes must also be sent to the PGME office. If residents have changes or inquiries with respect to payroll or human resources matters they should contact the PGME office for advice and assistance.

Residents are responsible for ensuring that contact information with the following organizations is always up to date. Residents must communicate changes regarding contact information directly with the relevant organization.

Canadian Medical Protective Association (CMPA): Residents must also notify CMPA when training within Canada (e.g. electives, mandatory rotations) occurs outside of the Province of Saskatchewan.

College of Family Physicians of Canada (CFPC)

College of Physicians and Surgeons of Saskatchewan (CPSS)

Royal College of Physicians and Surgeons of Canada (RCPSC)

Prescribing Policy

Residents must be aware of the minimum standards for written and verbal medication prescriptions as outlined in The College of Physicians and Surgeons of Saskatchewan Bylaws pursuant to The Medical Profession Act, 1981 (February 2007). Click here to read the relevant bylaw. Please note clause (7) Physicians in training who are enrolled on the educational register of the College of Physicians and Surgeons and who may be authorized to issue prescriptions must clearly identify on the prescription the name of the fully registered physician who is their supervisor in respect to that specific physician/patient interaction.

Click here for policies and procedures for residents writing prescriptions for controlled substances.
Registration - University of Saskatchewan

The Postgraduate Office registers each resident as a student of the University of Saskatchewan. A registration form/personal data sheet is sent to each resident with the new contract packages each year, which they must sign and return to the Postgraduate Office. Failure to register by July 1 may result in loss of credit for training time spent in the program. Registration ensures appropriate insurance coverage is in place for each individual. If you have outstanding fees or fines with the University of Saskatchewan (e.g. library), the University registration system will not allow registration until these fees are paid.

Request for Payment: Excess In-House Call Duty

To apply for payment, the resident must complete a Request for Payment – Excess In-House Call Duty form, attach a call schedule and submit it to the Administrative Resident for verification and signature. The Administrative Resident then submits the form to the Program Director for certification, explanation of such call, and signature. The form is forwarded to the Postgraduate Medical Education Office where it is reviewed and verified with the call schedule.

There must be clearly defined reasons and justification, certified by the Program Director, that this was an absolute requirement.

Payment is made as part of the monthly payroll as it is subject to standard payroll deductions. In order to be included on the monthly payroll cheque, the Request for Payment form should be received in the Postgraduate Medical Education Office by the third working day of the month.

Request for Payment: On-Call Stipend

All mandated call schedules will be certified by the Program Director as being correct and accurate and must be forwarded to the Postgraduate Medical Education Office before payment processing can occur. The Postgraduate Medical Education Office processes payments based on the certified call schedules and will not be responsible for verifying the accuracy of the call schedule or for resolving any conflict relating to incorrect submissions. Payment adjustments for incorrect call schedule submissions will not be possible. If payments are made based on incorrect submissions, it will be up to the residents involved to resolve this.

Request for Payment: Statutory Holiday Payments

The resident must complete the Request for Payment - Statutory Holiday form, attach a copy of the valid call schedule and submit it to the Administrative Resident for verification and signature. The form is approved by the Program Director who will then forward it to the Postgraduate Medical Education Office. If the form is not properly completed, or the appropriate signatures of approval are missing, the form will be returned to the resident.

Requests for paid time off in lieu of being on duty the day of the statutory holiday must be submitted to the College of Medicine within a 30-day period either before or after the statutory holiday.

The Postgraduate Medical Education Office verifies the information on the form with the attached call schedule. In order for statutory payments to be included on the month-end payroll, Request of Payment forms should be received in the Postgraduate Medical Education Office by the third working day of the month. This will allow the Postgraduate Medical Education Office time to process the information and forward it to meet the monthly cut-off date for making reports to Payroll.

Any statutory holiday payment request received by the Postgraduate Medical Education Office prior to the statutory holiday occurring will not be processed until the statutory holiday occurs as circumstances may prevent the resident from performing their duties as scheduled.
Once a statutory holiday request form has been processed by the Postgraduate Medical Education Office and forwarded to the University of Saskatchewan payroll department, no changes can be made. The resident will be required to take the pay and/or day off as originally requested.

Statutory holiday payments are subject to standard payroll deductions and therefore form part of the regular month-end payroll.

**Resignation of Residents**

The Postgraduate Medical Education Office must be notified immediately if residents resign from their training program. In the case of resignation, the Postgraduate Medical Education Office will make the appropriate payroll adjustments (if paid through University of Saskatchewan Payroll as a University Employee) for any unused vacation accrued or adjustments for any negative vacation or sick leave balances. The Postgraduate Medical Education Office will also notify the appropriate licensing bodies of the early resignation of the resident.

In cases where residents are dismissed or suspended from the training program, the [Assessment of Postgraduate Trainees - Guiding Principles](#) document should be used as a guideline to ensure proper procedures are followed.

**Resident Files**

Click [here](#) to view the policy and procedures for accessing information contained in resident’s individual program files and postgraduate medical education office files.

**Resident Role in Teaching Undergraduate Medical Students**

Residents have a role in teaching undergraduate medical students. The undergraduate MD program of the College of Medicine is accredited by the Committee on Accreditation of Canadian Medical Schools (CACMS) and by the American equivalent, the Liaison Committee on Medical Education (LCME). CACMS/LCME have identified that residents need to be prepared for their role as teachers to their junior colleagues. This is also an expectation of the College of Family Physicians of Canada and the Royal College of Physicians and Surgeons of Canada.

In order to achieve this, the resident must:
- be aware of overall objectives of training regarding undergraduate medical education
- familiarize themselves with specific objectives of courses in which they may teach (e.g. professional skills, clinical sciences and the JURSI / Clinical Clerk rotations)

**Teaching Improvement Project System (TIPS) Course**

In order to prepare the resident for their teaching role, it is mandatory that all residents take the online Residents as Teachers Module (via Blackboard Learn) and the TIPS Course in the first year of their training program. This course is offered through the College of Medicine, Office of Educational Support and Development (Phone: 306-966-1311).

TIPS will be offered on the following dates in the 2015/16 academic year:

**2015**
- Thursday, July 9th & 16th (FM Regina)
- Friday, July 10th & 17th (RC Regina)
- Tuesday, July 21st & 28th (FM Swift Current & Moose Jaw)
- Thursday, August 6th & 13th (RC Saskatoon)
- Thursday, August 20th & Monday, August 31st (FM Prince Albert)
The following information is provided as a reference to the objectives of the MD program which will be beneficial to residents in their role as teachers:

**Educational Objectives of the MD Program**

The aim of the undergraduate program is to graduate an “undifferentiated” or “multi-potential physician” with an M.D. degree.

**General Objectives**

The physician graduating from the College of Medicine at the University of Saskatchewan will possess the knowledge, skills and attitudes basic to all physicians such that he/she may satisfactorily proceed to further training in any area of the profession.

The primary objective is that the physician be able to identify, analyze and manage clinical problems in a way that provides effective, efficient and humane patient care.

The physician graduating from the Faculty will have had an opportunity to pursue an area of interest during the undergraduate training period.

The student who has achieved the general objectives will demonstrate competence in the following areas at the level of expertise of a new graduate:

**Physician as Medical Expert/Decision Maker**

Knowledge of normal human development, structure and function from a biological, psychological and social perspective.

Develop knowledge of medical vocabulary, facts, concepts, principles, laws, methods and procedures as demonstrated by the ability to:

- Use them to explain relevant clinical phenomena
- Use them to manage biological and clinical problems

Describe the natural history of a discrete number of common and important diseases.

Explain the basic facts and concepts necessary to practice effective preventive medicine including:

- Describe, with advantages and disadvantages, the use of appropriate immunization procedures in the prevention of disease.
- Recognize and assess the influence of environmental factors on patient’s problems.
- Recognize risk factors for the development of specific diseases.
- Explain common screening procedures and their interpretation based on critical review of the relevant evidence.

Detect and interpret significant physical signs by inspection, percussion, palpation and auscultation and use them in creating a diagnosis.
Demonstrate skill in using various clinical and laboratory instruments (e.g. ophthalmoscope, stethoscope).

Demonstrate skill in performing common technical procedures (e.g. measurement of blood pressure, venepuncture).

Acquire information required to solve problems.

Adjust the history and physical examination to the requirements of the situation.

Obtain required information by using appropriate sources (e.g. selection of appropriate clinical and laboratory procedures, library and other sources).

Define the patient’s problem within the context of their life situations (e.g. person, family, community).

Evaluate the urgency or seriousness of a situation and act appropriately.

Form a set of tentative hypotheses or diagnoses.

Initiate appropriate procedures for checking the hypotheses.

Revise and re-evaluate the tentative hypotheses and/or treatment plan based on new information and/or response to treatment.

Conscientiously maintain accurate patient records and files.

**Physician as Communicator/Educator/Humanist/Healer**

Conduct patient-centered interviews that explore the patient’s feelings, ideas, impact on function and expectation and provide the rationale.

Develop relationships with patients characterized by compassion, empathy, respect and genuineness.

Demonstrate a willingness to collaborate with the patient about management.

Perform a comprehensive physical examination without causing the patient embarrassment.

Adapt treatment plans with consideration for the patient’s age, general health, special needs, expectations, cultural background, progress or changes in condition.

Communicate information with explanations that are clear, concise and understandable to patients.

Counsel patients on risk reduction.

Balance patient’s welfare against need for precision when faced with a clinically ambiguous situation.

Abide by the principles in the Code of Ethics as published by the Canadian Medical Association and keep informed of changes in the code.

**Physician as Health Advocate**

Use specialized knowledge and skills to contribute to the well-being of both the community and individual patients.

Identify the rights and legal responsibilities of physicians to patients and the community.

Describe the determinants of health and apply appropriately to enhance individual and community well being.

Apply “cost-effectiveness” to public health interventions.

**Physician as Learner/Scholar/Scientist**

Demonstrate skill in self-directed learning by:

- Identifying areas of deficiency and strength in one’s own knowledge and skills
- Finding appropriate educational resources
- Evaluating personal learning progress
- Using new knowledge in the care of patients
- Learning and applying the scientific method
Evaluate the validity and applicability of published data through critical appraisal in consultation with others. Develop the self-knowledge necessary for personal growth and continuous learning. Critique the scientific method and its application to individual and population problems. Support and value the work of scientists as vital to the health of the population. Assess the effectiveness of current practices and engage in continuous quality improvement.

**Physician as Collaborator**

Work effectively as a member of a team. Collaborate effectively with patients and families without always taking charge. Find common ground when differences of opinion exist. Communicate effectively and cooperatively with peers and colleagues engaged in education, research and health care. Establish effective relationships with colleagues and other members of the health care team by:

- Considering their suggestions and criticisms
- Tactfully handling differences of opinion
- Providing support and direction to less experienced personnel

Recognize personal subjective perspectives; ensure they do not interfere with the patient’s best interests.

**Physician as Resource Manager/Gatekeeper/Steward**

Explain the structure and function of the Canadian Health Care System and its major components. Assist patients in accessing the health care system for physical, psychological, social and economic rehabilitation or long-term care. Identify potential conflict between individual and population health interests and seek advice from others, including ethicists when necessary, to help resolve issues.

**Physician as Person**

Explain personal assets, perspectives and limitations. Be willing to seek help, advice or consultation when needed. Accept that physicians cannot be “all things to all people”. Respond to personal and family needs and develop effective personal support systems.

**Resident Supervision**

To view the Resident Supervision Policy click here.

**Resident Safety Policy**

The Postgraduate Medical Education Office is committed to the promotion of the health, safety and wellbeing of all residents. To learn more about the Resident Safety Policy click here.

**Resident Transfer Policy and Procedures**

There are occasions when a resident or a residency program concludes that a transfer to another residency training program is in their best interests. For more information on the Resident Transfer Policy and Procedures click here.

**Time Away from Program (Non-educational)**

To view the policy for accounting for non-educational time away from educational programs, click here.
Travel Funds - Administered by Individual Program Offices

Several travel funds have been established that are administered by individual program offices to subsidize travel expenses for residents. Please contact your program office for more information.

Education/Conference Travel Fund

The purpose of this fund is to provide financial support to residents for travel, registration and expenses associated with attending conventions, seminars and workshops related to the resident’s training program. Residents are eligible for these travel funds to a maximum of $500 per resident per year. The education/conference travel fund is administered by individual residency program offices.

These travel funds are not available to cover any expenses related to resident electives.

Application & Reimbursement Process
Contact your Program Office for information on applying for funding and reimbursement.

Note: Approval for such funding is not associated with the type of leave you will use to attend the event. The criteria as stipulated under Education Leave must be met in order to be eligible to claim the leave as educational leave. If the criteria are other than those as stipulated, vacation leave must be applied.

Supplemental Fund – Conference Research Presentations

Postgraduate medical students are actively encouraged to participate in research projects during their residency training period. With greater frequency, postgraduate students have been successful in having papers and posters accepted at national and international conferences, following the rigor of peer review. To assist with the costs of residents attending national and international conferences to present their scholarly work, this fund is available to support up to a maximum amount of $2,000 per resident over the duration of their entire training program.

The following limitations apply:

1. Resident must present a paper or poster at a national or international conference.
2. The paper/poster must have been submitted to the conference for peer review.
3. The application must be supported by the Program Director or Department Head.
4. The research must be based on new projects undertaken while enrolled in a Residency Training Program at the University of Saskatchewan.
5. A copy of the paper and abstract must accompany the application.
6. A copy of the letter of acceptance of the paper/poster must accompany the application.
7. Application must be made prior to the conference. Retroactive applications will not be considered.
8. Approval of allocation of funds will be made by the Assistant Dean of Postgraduate Medical Education and a capitation will apply.
9. Submission of receipts of costs incurred will be governed by current University of Saskatchewan rules and regulations.

The supplemental fund for conference research presentations is administered by individual residency training program offices.

Application & Reimbursement Process
Contact your Program Office for information on applying for funding and reimbursement.

Note: Approval for such funding is not associated with the type of leave you will use to attend the event. The criteria as stipulated under Education Leave must be met in order to be eligible to claim the leave as educational leave. If the criteria are other than those as stipulated, vacation leave must be applied.
Travel Funds – Administered by PGME Office

Several travel funds have been established within the PGME office to subsidize travel expenses for residents. Each fund has been established to meet specific needs and has specific eligibility criteria.

Mandatory Out-of-Province Travel Fund

This fund was established to provide subsidization to residents who must travel to other centres across the country to receive training in areas not provided by the University of Saskatchewan. The rotation must meet the following criteria to be eligible for funding: must be mandatory as part of the Royal College of Physicians and Surgeons of Canada training objectives for the program; training must not be available in Saskatchewan; and there must be an Inter-University Affiliation Training Agreement in place with the site where the mandatory rotation will take place.

In May of each year, individual programs provide the Postgraduate Medical Education (PGME) office with a list of residents who will be completing mandatory out of province rotations during the upcoming academic year.

The PGME office will cover the following expenses for mandatory out-of-province rotations:

- **Single accommodations:** Furnished accommodations with basic utilities will be reimbursed up to a maximum of $1,900.00/month *(Note: This rate also applies if your spouse/partner is staying with you.)*

- **Family accommodations:** If residents are required to take their children for the entire rotation period they will be eligible to be reimbursed up to a maximum of $2,900.00 per month. If residents are bringing their children with them, they must contact Della Toews at 306-966-1941 or della.toews@usask.ca before they leave to review guidelines for bringing additional family members.

- **Accommodations provided by family/friends:** If residents stay with family members or friends they can claim $30 per day for accommodations without a receipt (as per U of S expense guidelines).

- Economy airfare (one round trip) OR mileage for one round trip from Saskatoon to location of rotation (as per current University mileage rates).

- Provincial licensing fees, certificate of standing, criminal record check, university PGME administration fees, passport photo, etc.

**NOTE:** Payment Services requires receipts for each expense being claimed.

Only the above noted expenses are eligible for reimbursement. Residents are not reimbursed for any other living costs including: parking, food, taxis, rental cars or miscellaneous travel costs.

**Application & Reimbursement Process**

Residents should contact their Program Office for information on scheduling their mandatory out of province rotation and the process for applying for reimbursement.

**Mileage Reimbursement for Distributed Education**

Funding is available to support resident travel between distributed sites in Saskatchewan for approved core (mandatory) rotations. This travel fund is not available to support expenses related to resident electives.

Residents who travel to a distributed site for an approved core rotation will be reimbursed for one return trip between their home base and the distributed site. In addition, mileage reimbursement for one additional trip, to attend a program mandated activity (e.g. exam, resident research day), is available. The program mandated activity would require the resident to return to the home program while assigned to a distributed learning site and must be authorized by the Program Director. Where possible, programs should avoid mandating a resident’s return if not absolutely necessary; for example, utilizing other resources such as videoconferencing to help residents participate in program activities while away.

**NOTE:** Claims may only be submitted AFTER the rotation is completed.
**Reimbursement Process using Concur - NEW**

When the rotation has ended residents will submit a claim for mileage reimbursement through the U of S online Concur travel and expense system.

---

### The College of Medicine and Payment Services will be offering Concur training sessions for residents on July 7, August 20, September 17, and October 15 2015.

Contact Jennifer Dybvig at jennifer.dybvig@usask.ca to sign up for a session.

---

Claims must be submitted as soon as possible, **but no later than 2 months**, after returning from a trip. University of Saskatchewan mileage rates will apply. **Effective July 1, 2015 the mileage rate for personal travel is $0.3999/km**

---

### Tuition Fee

There is currently no tuition fee assessed for ministry funded residents.

---

### Uniforms

Residents should contact their program office to determine the type of uniform required. Residents are responsible for purchasing their own lab coat.

---

### Waiver of Training Policy After a Leave of Absence from Residency

The PGME office has adopted a policy that Postgraduate Medical Education not grant waivers of training at this time.
