RE: Research Services Listservs

Research Services listservs are primary modes of communication to researchers. Researchers are encouraged to subscribe to any of the available listserves. The information posted on these listservs will alert subscribers about funding opportunities, funding deadlines, internal review timelines/notices/updates, other agency announcements, conference information specific to the U of S, workshops and changes within the Research Services and Ethics Office.

Outlined below are steps explaining how to subscribe and unsubscribe. Upon subscription, you will only receive messages from the listservs; you cannot post messages.

How to Subscribe/Unsubscribe to the Listserv(s):

1. Click on the listserv link below.
2. Enter your e-mail address and then select Subscribe or Unsubscribe.
3. You will receive an email asking for confirmation; click on the URL. You must send the confirmation in order to have your name on the list.
4. A second e-mail will confirm your successful subscription.

Listservs:

Agriculture
