**COLLEGE OF MEDICINE
STATEMENT OF CONFIDENTIALITY
- APPLICANT -**

The University of Saskatchewan College of Medicine (CoM) Faculty is committed to upholding the highest standards of ethical and professional behaviour. Consequently, all interviewed applicants to the CoM will be required to read and sign this confidentiality disclosure statement.

Your signature confirms:

- (i) your registration to take part in the CoM's multiple mini interview (MMI) process for admission to the College, and
- (ii) your agreement to not disclose the identity of the interviewers, and to not disclose any of the questions and answers made during your MMI (as held on March 21 and 22, 2020). The latter information is strictly confidential and shall not be disclosed to any person. **Your failure to sign or your lack of compliance with this confidentiality agreement will result in the CoM withdrawing your application for admission.**

The CoM will use your MMI results in two ways. First, your MMI results will be used for the purpose of evaluating you as an applicant to the CoM. Second, your MMI results (with your identity removed) will be utilized for the purpose of assessing and improving our admissions procedures. You should be aware that, from time to time, research studies are employed to further our understanding of admissions to medical schools and to improve the way our society's future physicians are chosen. Any evaluations or research done on the MMI which might include your de-identified MMI results are for experimental purposes and, as such, are independent of how your MMI results are used in the CoM's admissions processes.

I have read, understand, and agree with the information above.
