VISION

Inspiring hope for Saskatchewan patients

MISSION

Advance patient care by providing innovative education, research, and clinical service

To our patients:
We offer the best possible medical care.

To our students and residents:
As role models for future clinicians and scientists, we offer quality programming and a supportive learning environment.

To our department members:
We support, develop and engage all members to foster a mutually beneficial relationship and a common sense of purpose.

To Saskatchewan:
We collaborate, engage and innovate to address medical needs.
The Department of Medicine will focus on the following strategic priority areas.

**Empower and engage members**
Support, develop and engage members to foster a mutually beneficial relationship and common sense of purpose.

**Innovative patient care**
Apply innovative and practical interventions to support quality patient care and safety across the province.

**Quality education**
Ensure quality methods to graduate clinicians and scientists with the appropriate skills in education and research.

**Research and innovation**
Foster an environment where research can excel.
