Department of Emergency Medicine

Research Day 2023

Regina

Guest Speaker:
Clare Atzema, MD, M.Sc., FRCPC

Dr. Atzema is a Staff Emergency Physician at Sunnybrook Health Sciences Centre and a Senior Scientist at Sunnybrook Research Institute and ICES. She is an Associate Professor at the University of Toronto and a Decision Editor at Annals of Emergency Medicine. She has published over 130 peer-reviewed publications, primarily on the care of cardiovascular disease within the emergency setting and transfer of care back to longitudinal care providers. Her primary focus is on atrial fibrillation (AF), with a secondary focus on hypertension and heart failure. As a member of the Canadian Cardiovascular Society’s (CCS) Primary AF Panel she has contributed to the CCS AF Guideline documents since 2014, and she has been a member of the CAEP AF checklist committee since its inception in 2017. In 2022 she was the Recipient of the 2022 CIHR-ICRH/CAEP Mid-Career Lecturer Award in Emergency Medicine.

Writing Workshop:
Tips & Tricks for Surviving the Game:
An honest approach to making research more manageable

This presentation is an interactive session about making research easier, engaging resident researchers and not reinventing the wheel. The discussion objectives aim to provide a realistic view about the difficulties of performing research, to describe concrete ways to make conducting research easier and to offer high-level, abstract advice on how to make establishing a research program, or just a research project, the least painful possible.

Keynote Presentation:
Considering a career in research?
Research it first: the journey of one cis-gender female clinician scientist in emergency medicine

This presentation reveals the lessons, tips & tricks learned throughout Dr. Atzema’s career to date and how you too, can learn while you embark on your own journey into research.
