

Department of Emergency Medicine

RESEARCH DAY 2025

Thursday, May 22nd | 9:30 am - 3:30 pm
SASKATOON, SK

Keynote Speaker:

Dr. Terry Klassen, MD, MSc, FRCPC

Dr. Terry Klassen is a Pediatric Emergency Physician and Clinician Scientist. He is focused on the design and conduct of randomized controlled trials and systematic reviews to improve the outcomes of acutely ill and injured children presenting to the emergency department. He is working to improve the methods and conduct of research in this area. For this work he has been selected to join National Academy of Medicine (US) and Canadian Academy of Health Science (Canada).

He has held major academic leadership roles across Canada, including Professor and Chair at Department of Pediatrics, University of Alberta and Stollery Children's Hospital (1999 to 2009). Most recently he was CEO and Scientific Director of Children's Hospital Research Institute of Manitoba (2010 to 2024) and Head, Department of Pediatrics and Child Health, University of Manitoba (2014 to 2019). He assumed the role as Provincial Department Head of Pediatrics, University of Saskatchewan and Saskatchewan Health Authority on April 1, 2024.

Keynote Address:

Pediatric Emergency Medicine: Journey From Single Center Study to International Knowledge Mobilization
