Thank you for your interest in the College of Medicine at the University of Saskatchewan. We appreciate you taking the time to review this important document. As the only medical school in Saskatchewan, the College of Medicine exists primarily to serve the residents of the province. As such, the vast majority of our seats are reserved for Saskatchewan residents. Our school values diversity and we strive to have an incoming MD class that reflects the diversity of our province. Our Indigenous Admissions Pathway (IAP) is designed to support self-declared First Nations, Métis, and Inuit students from all over Canada to gain admission to Medicine. Our Diversity and Social Accountability Admissions Program provides Saskatchewan residents who have experienced a challenging socio-economic background an opportunity to enter the College. If you are not a Saskatchewan resident, we value the diversity you also bring to the incoming class and we currently have five seats allocated for non-Saskatchewan residents (non-Indigenous).

Please visit our website ([www.medicine.usask.ca/admissions](http://www.medicine.usask.ca/admissions)) to learn more about our medical school and what we have to offer you as a future medical student studying at Saskatchewan's Medical School. This website will also have information about any proposed and approved changes to future admission cycles.

## I. GENERAL INFORMATION

**The mandate of the Admissions Committee** is to select students who have the academic ability and possess the personal attributes to be successful in our program and in their future careers in medicine.

We feel that students coming into the College of Medicine should have the following personal attributes:

- *communicate well in giving and receiving information*
- *exhibit resiliency, maturity, and be self-directed*
- *have insight and be teachable*
- *be congenial and have excellent people skills*
- *show compassion, empathy, and respect for all*
- *demonstrate ability to lead and advocate*
- *possess integrity and professionalism.*

We have a total of 100 seats with four application pools, based on residency and diversity elements, and each pool has its own rank list.

- 1) Saskatchewan Resident (SR) (at least 79 seats)
- 2) Non-Saskatchewan Resident (NSR) (maximum 5 seats)
- 3) Indigenous Admissions Pathway (IAP) (maximum 10 seats)
- 4) Diversity and Social Accountability Admissions Program (DSAAP) (maximum 6 seats)

Please note that Saskatchewan residents that qualify for the DSAAP will first be ranked in the Saskatchewan resident pool and could gain admission through this pool to maximize the number of students who qualify and gain admission under the DSAAP.

## II. **NEW!!** APPLICATION PROCEDURES AND DEADLINES

We are launching a **NEW** application system this year! Application to the College of Medicine will now be completed through the University of Saskatchewan Admissions site at <https://apply.usask.ca>.

You will need to create an account.

**UNIVERSITY OF SASKATCHEWAN**

Log in Create account Start application Campus tours Events

### Create account

Your account is your unique, personalized access to the University of Saskatchewan (USask) admissions portal. You can use it to manage your application, view your status, and update your interests and communication preferences. Please do not use your account to apply for admission on behalf of someone else.

**Personal information**

To help us make sure you receive the notifications and information you want, please tell us about yourself and what you're interested in.

**Legal first name \***

**Legal family/last name \*** **Preferred name**

 

**Date of birth \***

You will then get an email from a **Do Not Reply** address to click to complete the setup of your account.

Once you are logged in after you have confirmed your account, you can use Start application to select to start a Medicine application.

My account Start application Campus tours Events

### Choose an application

**What do you want to apply for today?**

☐ Undergraduate program: bachelor's degree, diploma or certificate  
 Agriculture and Bioresources | Arts and Science | Education | Edwards School of Business | Engineering | Kinesiology | Certificate in Dental Assisting

☐ Joint admission to an undergraduate program and English studies (EAP)  
 EAP and one of: Agriculture and Bioresources | Arts and Science | Education | Edwards School of Business | Engineering | Kinesiology

☒ Undergraduate program that requires previous post-secondary study  
 Dentistry | Law | Medicine | Nursing | Nutrition | Pharmacy | Veterinary Medicine

☐ Graduate program: post-graduate diploma, master's or PhD degree  
 These programs require a previous degree in a relevant discipline.

☐ English studies (EAP) only  
 Take courses to improve your English language skills for personal development.

☐ Take undergraduate classes as a visiting or audit student  
 Visiting: Take classes that will transfer to a program at another university.  
 Audit: Take classes for interest only without earning credit.

**Please select the program you would like to apply for:**

☐ Dentistry

☐ Law

☒ Medicine

☐ Nursing

☐ Pharmacy or Nutrition

☐ Veterinary Medicine

**A.** The online application will be available in early August. You cannot log back into your application after it has been submitted to make changes to the information you have provided. Any necessary changes must be emailed to the Admissions Office ([med.admissions@usask.ca](mailto:med.admissions@usask.ca)). Correspondence from the Admissions Office will only be sent to the email address provided on the online application; no paper or hard copy will be sent by post. You must ensure the email account provided in the online application is active and routinely checked, including junk/spam folders.

**B.** The deadline to complete and submit the online application and pay the application fee is October 1, 2021. We will not accept late applications under any circumstance.

**C.** The non-refundable application fee is \$150.00 and must be paid by credit card.

**D.** For applicants invited to participate in the Multiple Mini Interview (MMI), there is an additional non-refundable fee of \$75.00 which must be paid at the time of accepting the MMI invitation.

**E.** Transcripts and any other documents required for application (e.g., proof of residency) must be uploaded to your application.

**F.** Deadlines are important, therefore missing a deadline, failing to submit the required supplemental documentation or neglecting to respond to an email requesting information may result in your application being removed from further consideration.

**G.** You must inform the Admissions Office if you have been subject to any of the following in your current or previous academic program (up until the first day of starting medical school): professionalism review, academic misconduct, non-academic misconduct, or a disciplinary review. Failure to report such misconducts and reviews *will* result in an application being coded inactive.

**H. The language of instruction at the University of Saskatchewan is English.** Applicants whose primary language is not English may be required to present proof of proficiency in English. Information regarding the English language proficiency requirement at the University of Saskatchewan can be found at <https://grad.usask.ca/admissions/admission-requirements.php#Englishlanguageproficiencyrequirements>.

**I.** The Admissions Office is available to assist interested individuals who seek information regarding the admission requirements for the College of Medicine. The Admissions Office will not provide specific course(s) of action to follow based on individual circumstances, however we will provide general information about our policies and procedures to assist applicants in making their own choices with respect to the requirements for application to Medicine. The following points require special attention:

- No official of the College can guarantee the admission of any applicant. Admission is determined solely by the Admissions Committee based on the policies set out in this document.
- All admissions inquiries must be submitted via email to [med.admissions@usask.ca](mailto:med.admissions@usask.ca) to appropriately document official communication with the Admissions Office. Therefore, our office will not respond to or communicate with applicants over the phone.
- Any inquiry pertaining to the review and evaluation of a foreign transcript (not including American institutions) **must be** accompanied by a valid Medical College Admissions Test (MCAT) result (i.e., a test written no earlier than January 2018). Foreign transcripts related to study-abroad coursework are not included in this requirement.

### III. RESIDENCY AND CITIZENSHIP

You must be a Canadian citizen or have Permanent Resident status by the application deadline of October 1, 2021. Additionally, you must have lived in Canada for at least three years of your life prior to August 1 of the year in which admission is being sought.

Please note, if your Permanent Resident card expires between the application deadline and September 1 of the year of admission, admission to the College will be conditional upon receipt of an updated valid Permanent Resident card by September 1.

#### A. Saskatchewan Residents

1. A Saskatchewan resident is defined as someone who has **physically resided** in Saskatchewan for the three years **immediately preceding** August 1 of the year they are seeking admission (i.e., August 2019 for August 2022 entry) or have previously lived in Saskatchewan for an accumulated period of 15 years (see Proof of Saskatchewan Residency - Required Documentation). If you have previously lived in Saskatchewan for an accumulated period of less than 15 years, and do not qualify under the three-year condition, you will receive credit of one year toward the three-year requirement for every five years residency in the province (e.g., if you have lived in Saskatchewan for the past two years, and also have lived in the province for five to nine years at some point prior to the recent two years, that would fulfill the three-year residency requirement).

If you are a Saskatchewan resident applicant *but do not meet the 15 year residency requirement* and are attending school outside of the province during the September-April academic year, you are expected to return to the province of Saskatchewan in the off season (May-August) or else you will not be considered as a Saskatchewan resident. Documentation (as outlined in Proof of Saskatchewan Residency - Required Documentation) providing proof of your physical presence in the province will be required.

2. An exception to the three-year ruling may be made for members of the Armed Forces of Canada or RCMP, or for an applicant whose spouse, parent, or guardian is a member of the Armed Forces of Canada or RCMP, who has moved to Saskatchewan due to being reassigned. In these cases, the applicant **must have physically resided in Saskatchewan** for at least 12 consecutive months immediately preceding October 1 of the year of application (i.e., October 2020) and obtained written approval from the Admissions Office prior to the application deadline to waive the three-year requirement (contact the Admissions Office at [med.admissions@usask.ca](mailto:med.admissions@usask.ca)).

3. For the purposes of establishing Saskatchewan residency, you can submit an application if you are currently doing at least your 3<sup>rd</sup> year of full-time study at the University of Regina or the University of Saskatchewan **immediately preceding** the date of entry being sought. The Admissions Office will verify this claim at the time of the University of Saskatchewan or University of Regina transcript review. If you establish your Saskatchewan residency through this provision, but do not gain entrance to medical school in the final year of your degree at either University, you must **physically remain** in the province and provide proof of residency to maintain your claim of Saskatchewan residency for any subsequent application (see Proof of Saskatchewan Residency - Required Documentation).

4. Individuals who meet the same criteria based on residency in Yukon, Northwest Territories, or Nunavut can apply as a Saskatchewan resident. Parallel documentation (as listed in Proof of Saskatchewan Residency - Required Documentation) will be required to cover the entire period of time in question.

### **Proof of Saskatchewan Residency - Required Documentation**

- **Claim of having lived in Saskatchewan entire life or for 15 years in the past:** Official letter from Saskatchewan Health Services showing years of coverage.
- **Claim of having lived in Saskatchewan for the three current years:** (i) official letter from Saskatchewan Health Services showing the years of coverage; AND (ii) proof of employment in the province. For proof of employment any or all of the following may be required: pay stubs, letter from employer, record of employment, the assessment page from Revenue Canada showing that you have filed Saskatchewan tax returns. Please ensure that your social insurance number has been redacted.
- **Claim of Saskatchewan residency under item 3 attending University of Saskatchewan or University of Regina:** Transcript from the University of Saskatchewan or the University of Regina. Due to the COVID-19 pandemic restrictions, applicants applying for admission as a Saskatchewan resident under the current 3-year ruling and will be not residing in the province of Saskatchewan during the 2021-2022 academic year (September-April), the Admissions office will continue to use the University of Saskatchewan or University of Regina transcript as proof of their Saskatchewan residency during that time period only. In this case, applicants must be enrolled in a minimum of 9 credit units (each term), the courses must be requirements of their declared degree, and all of the courses must be successfully completed.

#### **NOTE:**

- A Saskatchewan or Territorial driver's license is no longer accepted as proof of Saskatchewan residency.
- At the discretion of the Admissions Office, applicants may be required to provide additional supporting documentation for their claim of Saskatchewan or Territorial residency.
- Applicants are encouraged to contact [med.admissions@usask.ca](mailto:med.admissions@usask.ca) prior to application if they have questions concerning meeting the requirements for Saskatchewan or Territorial residency.
- Any applicant who misrepresents their residency status will be subject to a file review for professionalism and areas of concern.

## **IV. DIVERSITY AND SOCIAL ACCOUNTABILITY ADMISSIONS PROGRAM (DSAAP) FOR SASKATCHEWAN RESIDENTS**

The DSAAP is a voluntary opt-in program with 6 seats available for Saskatchewan resident applicants that have an average gross family income over the past 5 years below \$80,000. Information regarding the DSAAP can be found at [DSAAP](#).

## **V. REQUIREMENTS TO APPLY**

### **1. COMPUTER-BASED ASSESSMENT FOR SAMPLING PERSONAL CHARACTERISTICS (CASPer®)**

All applicants are required to complete a current 2021 online assessment, [CASPer®](#), to be eligible for admission. CASPer is an online situational judgement test that assesses for numerous personal and professional characteristics.

The applicant is responsible for booking and taking the CASPer, which includes having access to all of the following:

- AAMC ID
- Government-issued photo ID

- Valid email address
- Working webcam
- Working microphone
- Reliable high-speed internet connection

Please go to [www.TakeAltus.com](http://www.TakeAltus.com) to register your CASPer account and sign up for the **CSP-10201 – Canadian Professional Health Sciences** version of CASPer using a piece of government-issued photo ID and your AAMC ID.

Applicants applying to the College of Medicine at the University of Saskatchewan will be able to select a CASPer test date between August 8, 2021 and October 19, 2021. **Snapshot is NOT required.**

Applicants must make sure to select the **University of Saskatchewan College of Medicine for CASPer score distribution before the posted Distribution Deadline of November 5, 2021.**

For the most up to date information regarding test dates, please check the [www.TakeAltus.com](http://www.TakeAltus.com) website under [Test Dates and Times](#). To account for identity verification and payment processing timeline, ensure that you register for your test at least three days before your preferred test date and time. Last-minute bookings are not recommended. If you require testing accommodations for CASPer, you will need to submit the [Accommodations Request Form](#) signed by you and your qualified professional three weeks in advance of your desired test date. More information regarding CASPer accommodations can be found [here](#).

Please direct any inquiries about CASPer to [support@takealtus.com](mailto:support@takealtus.com). Alternatively, you may reach out to the CASPer Support Team through the chat bubble in the bottom right-hand corner of your screen on the [www.TakeAltus.com](http://www.TakeAltus.com) website or in your CASPer account.

CASPer typically takes between 75-90 minutes to complete. No studying is required prior to taking the CASPer test, however you are encouraged to familiarize yourself with the test format via the System Requirements Check and 12 section practice test. Additional helpful resources are available free of charge at <https://takecasper.com/test-prep/> and <https://takecasper.com/faq/>. For a more detailed look at the CASPer test, please see this [video](#).

CASPer test results are only valid for the admission cycle in which it is taken. Applicants who have already taken CASPer in previous years are required to re-take it to be eligible for subsequent admission cycle(s).

Please note that the College of Medicine does not process CASPer results until late November, therefore this item will not be marked as received until the initial review is completed.

## 2. ACADEMIC REQUIREMENTS

Saskatchewan resident applicants are required to meet both requirements A and B.

### A. Medical College Admission Test (MCAT)

The MCAT must have been written prior to the application deadline of October 1, 2021. You must request that all of your MCAT results be released electronically **specifically** to the University of Saskatchewan, College of Medicine, via the Association of American Medical Colleges (AAMC) MCAT Test Site and **specifically between October 12, 2021 and October 31, 2021**. Even if you have previously released your scores to the University of Saskatchewan, College of Medicine prior to October 12, 2021, you **must again release** them during the above

stated time period. **In order to capture all possible MCAT results, only scores released to the University of Saskatchewan, College of Medicine during this time period will be considered.**

The earliest accepted scores for application in 2021 for entry fall of 2022 are from January 2018. **Only the most recent MCAT writing will be considered.** Confidence bands are not considered and any further AAMC adjustments to scores after our MCAT score release deadline of October 31, 2021, will not be considered. The AAMC site will produce a report for applicants showing when scores are released to the University of Saskatchewan, College of Medicine; therefore, we will not confirm receipt of MCAT scores.

Please note that the College of Medicine does not process MCAT results until late November, therefore this item will not be marked as received until the initial review is completed.

No minimum MCAT total and section scores are required to apply. The Admissions Committee reviews all of the applicant pool MCAT scores and sets the minimum overall MCAT and section scores for the current cycle. In the last two cycles, a total MCAT score of 492 and minimum section scores of BBFL 123; CARS 122; CPBS 123; PSBB 123 were set as cut scores by the Admissions Committee. Similar cut scores are likely to be used again in the upcoming cycle, therefore applicants with MCAT scores under these previous cut score thresholds are encouraged to retake the MCAT.

While no prerequisite courses are required for admission to the MD program, to prepare for the MCAT and to ensure readiness for the concepts covered in the first two years of the undergraduate medical curriculum, applicants are strongly encouraged to complete equivalent/similar courses in the following: Introductory level Biochemistry, Chemistry, Biology, Physics, Statistics, Sociology and Psychology.

Registration for the MCAT is online at [www.aamc.org/mcat](http://www.aamc.org/mcat).

## **B. Four-Year Baccalaureate Degree Awarded Prior to Entry into Medicine**

Calculation of the **university academic average (UAA)** is done in percentages (%). Where transcripts have results in other than %, conversion to % will be done. For more information go to [Conversion Scale](#).

### **NOTE:**

Due to the COVID-19 pandemic, some universities have made the decision to give undergraduate students the option of choosing credit/no credit/pass/fail. We would like to remind you that if you are considering applying to our Undergraduate Doctor of Medicine (MD) program, it is important to carefully consider the admission requirements before making your decision. To maintain your eligibility and to ensure that our admissions policies and processes can be carried out, you must have either letter or numerical grades assigned and posted to your transcript. Exceptions will be granted **only** if the institution did not give students the option of choosing a grade (letter or percentage) for their courses during the COVID-19 period.

Students must have completed a four-year baccalaureate degree (can be in any subject area) prior to entry into Medicine. Saskatchewan residents must have attained a UAA of **≥ 75%** as described below. The UAA calculation will be based on the evaluation of grades reported on official transcripts from **all accredited degree-granting post-secondary institutions attended** (with the exception of Articulation Agreements - see item E), regardless of whether or not transfer credits were awarded, and regardless of the time of year a course was taken.

You are not required to carry a full courseload as long as you meet the stated time requirements. The UAA calculation uses course credit unit weighting and an initial class and a repeated class will both be counted if they fall within the courses used to calculate the UAA.

Items A through L will be considered when determining an applicant's UAA. If the current year is being used in calculation of the UAA, courses taken in term 2 (after December 31) must average  $\geq 75\%$ . If your UAA can be calculated more than one way, the best UAA calculated will be used.

**(A) FIRST FOUR-YEAR BACCALAUREATE DEGREE.** A Saskatchewan resident can **apply in the final year of a four-year baccalaureate degree program**, provided  $\geq 102$  credit units (CU) are completed by the end of December of the application year. If you are offered a seat in Medicine, all coursework taken up to the awarding of the four-year degree must be completed by the end of April prior to entry to Medicine and in  $\leq 5$  years since starting university (the only exception to the four-year degree requirement is described in (D)). All university courses completed as of the end of December following application will be used in calculating your UAA for admission purposes. Although courses completed in the calendar year following application will not be used in calculating your UAA, these final courses must average  $\geq 75\%$ . **If you have been awarded a four-year degree prior to application**, your UAA will be calculated on the most recent 120 CU completed up to award of the degree. In this case, the courses being counted must have been completed within a period of  $\leq 5$  years.

**NOTE: Additional undergraduate level courses taken following the awarding of a degree will only be considered if they will result in a subsequent four-year degree completed by the end of April and that will be awarded prior to entering medical training.**

**(B) ADDITIONAL FOUR-YEAR BACCALAUREATE.** If you start a new four-year degree program after completing your first four-year degree, you must be within 30 CU of completing the new four-year degree program at the time of application for the new degree to be considered for UAA calculation purposes. All coursework for the awarding of the four-year degree must be completed by the end of April prior to entry to Medicine. For purposes of UAA calculation, the most recent 120 CU completed as of the end of December of the year of application will be used and the 120 CU must have been completed within  $\leq 5$  years. Although courses completed in the calendar year following application will not be used in calculating the UAA for admission purposes, academic performance in these classes must average  $\geq 75\%$ . If you are not within 30 CU of completing the second degree at the time of application, only your first four-year degree will be considered as per (A).

**(C) RESTARTING UNIVERSITY.** If you restart university after being away from post-secondary studies for at least 8 consecutive months, you must be within 30 CU of completing the four-year degree program at the time of application for the restart degree to be considered for UAA calculation purposes. All coursework for the awarding of the four-year degree must be completed by the end of April prior to entry to Medicine. For purposes of UAA calculation, the most recent 120 CU completed as of the end of December of the year of application will be used and the 120 CU must have been completed within  $\leq 5$  years. Although courses completed in the calendar year following application will not be used in calculating the UAA for admission purposes, academic performance in these classes must average  $\geq 75\%$ . For restart applicants, the time away from university will be removed when assessing the five-year period. Only 1 restart is allowed within the 120 CU being considered. Any additional restarts (i.e., two or more) within the 120 CU being considered will be allowed, however, the removal of the most recent time away will be reviewed and a decision on whether it, too, is removed will be made on a case-by-case basis.

**(D) PROFESSIONAL PROGRAMS (NON-DIRECT ENTRY).** Individuals currently in a professional program (non-direct) (foreign medical schools or foreign professional programs are not considered) can apply if prior to application  $\geq 90$  CU have been completed, and  $\geq 102$  CU are completed by the end of December of the application year. At least 120 CU must be completed by the end of June prior to entry to Medicine. Coursework taken in the 6 months after December of the year of application must be required for the professional program the individual is enrolled in. The professional degree does not have to be awarded prior to entry into Medicine. If an undergraduate degree is completed prior to the application deadline, the UAA of that degree will also be considered as in (A). To calculate the UAA, the most recent  $\leq 120$  CU up to the end of December of the year of application will be used to

calculate the UAA, provided the 120 CU have been completed within  $\leq 5$  years. As in (A), although any coursework taken in the calendar year following application will not be used in calculating the UAA for admission purposes, the average in the classes started as of January must be  $\geq 75\%$ . If you are currently in a professional college, a final admissions decision will not be made until all current academic year coursework and examinations are completed. Grades for the current year must be available by July 15, 2022.

**(E) ARTICULATION AGREEMENTS.** In the case of a degree resulting from an articulation/partnership agreement between institutions to facilitate transfer of credits and awarding of a four-year degree (i.e., technical school and university), if a block transfer of credit units is noted on the transcript of the receiving institution, then the average of the entire transcript from the technical school will be applied as the average of the block transfer. For example, if an applicant completed a diploma or certificate program from a technical school and then was awarded a block transfer of 60 credit units to be applied towards the completion of a four-year degree, then the average of the entire transcript from the technical school will be used as the average of the block transfer credit. The UAA calculation will then be completed.

**(F) UAA CALCULATION BASED ON LAST 120 CU.** When the most recent 120 CU are used for calculation of the UAA, the earliest courses required to make the 120 CU total frequently fall time-wise within a larger number of classes taken concurrently (i.e., within the same academic term). In this case, the average of all classes taken concurrently will be used as the mark for each of the remaining courses needed to reach the 120 CU total (e.g., if the last 3 CU class needed to get to 120 CU falls within an academic term where five 3 CU classes were taken concurrently, the average of the five classes is used as the mark for the last required 3 CU).

**(G) PASS/FAIL COURSES.** Up to 60 CU maximum of pass/fail grading are allowed within the courses used for the calculation of the undergraduate degree UAA. Any additional pass/fail courses **must be pre-approved by the Admissions Office**.

**(H) DISTANCE EDUCATION.** Up to 60 CU of distance education are allowed within the courses used for the calculation of the UAA. Any additional distance education courses **must be pre-approved by the Admissions Office**. Degrees obtained by taking entirely distance education classes **will not be accepted**. NOTE: Courses required to be remotely presented due to COVID-19 that are normally presented in a face-to-face format, will be excluded from 60 CU maximum.

**(I) WRITTEN SUBMISSIONS.** Most potential applicants will fit into one of items A–E for UAA calculation purposes. For an individual who does not meet the **time requirements**, the situation must be detailed in writing and submitted to the Admissions Office for consideration. To be dealt with in a timely manner, such submissions must be received by the Admissions Office well in advance of the annual application deadline. Note that no case will be considered with fewer than 102 CU completed prior to the end of December of the year of application or 120 CU completed by the end of April prior to possible entry into Medicine. Some honours, double majors, and/or work-experience or co-op programs will run beyond the five-year period allowed for a four-year degree. Such situations will be handled on a case-by-case basis by the Admissions Office upon receipt of the details in writing.

**(J) INTRODUCTORY LEVEL COURSES.** Any introductory level courses completed beyond the numerical maximum allowed by the degree granting institution for the four-year degree will not be considered in the calculation of the UAA. Students delaying the completion of a degree by taking additional credit units in junior level courses is discouraged and may result in a file going forward to the Admissions Committee for review.

**(K) AP/IB TRANSFER CREDITS.** Advanced Placement (AP) and International Baccalaureate (IB) credits can be used towards completion of a four-year degree, but will not be counted towards calculation of an individual's

UAA for admission purposes. The start and completion date for AP/IB courses will be as if they were taken during the first year of university.

**(L) GRADUATE STUDENTS.** Applicants currently enrolled in a post-graduate degree program at the end of the application year will have their UAA calculated with all graduate-level classes completed to the end of December considered if to the applicant's advantage. For applicants who have completed a Master's degree or PhD by the end of December the year of application, 9 or 15 CU worth of lowest marks, respectively, will be removed from their undergraduate degree and the UAA will be recalculated using the most recent 111 CU or 105 CU, respectively. Classes completed after the year-end will not be considered.

**(M) ACADEMIC CONSISTENCY.** The Admissions Committee may remove a file for further consideration of admission based on (i) an irregular academic record (e.g., grades declining over time, grades fluctuating over a wide range, excessive junior level courses taken in senior years) or (ii) incongruence between the university academic performance and MCAT results.

## VI. APPLICATION REVIEW PROCESS

- A. CASPer results.
- B. Medical College Admissions Test (MCAT) results are assessed to ensure that (i) the most recent score has been submitted, (ii) the most recent test was written within the required timeline, (iii) the scores met the threshold (cut score) as set by the Admissions Committee.
- C. Proof of residency (Canadian Citizenship, Permanent Resident, Saskatchewan Resident), supporting documentation, four-year degree requirement with required minimum UAA, and academic consistency will be assessed.
- D. As a result of the assessments in steps A, B and C, you can be notified at any time that your application will not proceed further.
- E. Invitations are sent to selected applicants within each applicant pool to participate in our Multiple Mini Interview (MMI) along with a request for references.
- F. Based on performance in the MMI, unsuccessful applicants may be notified that their application will not proceed further.
- G. Interviewed applicants that have met the minimum MMI assessment score are processed according to the criteria applicable to the applicant pool they are in. Interviewed individuals are then informed that they: (i) are being offered a seat, (ii) have been wait-listed, or (iii) will not be offered a seat in the current admission cycle.
- H. Beyond being informed of one of the three outcomes listed in step G, no further information will be provided to interviewed applicants either in writing or through a personal meeting with any member of the Admissions Office, the Admissions Committee, or the College of Medicine Dean's Office.
- I. Confidential information in an applicant's file will not be disclosed to an applicant or anyone acting on the applicant's behalf. Relevant Saskatchewan legislation pertaining to this policy is excerpted as follows.

*The Saskatchewan Local Authority Freedom of Information and Protection of Privacy Act*  
(1990-91, c.L-27.1, section.30, subsection 3.):

*The (university) may refuse to disclose to an individual personal information that is evaluative or opinion material compiled solely for the purpose of:*

*(a) Determining the individual's suitability for: .....*

*(ii) admission to an academic program; .....*

*where the information is provided explicitly or implicitly in confidence.*

## VII. CRITERIA FOR INTERVIEW OFFER

Your CASPer score and MCAT score (including section scores) will be used to determine if you will receive an interview offer.

Personal qualities are first assessed by CASPer and then through participation in our virtual Multiple Mini Interview (MMI) hosted through the Kira Talent platform. The number of Saskatchewan residents, including Indigenous applicants, and non-Saskatchewan resident applicants invited to interview will vary year by year, depending upon the number of eligible individuals in each applicant pool.

Upon acceptance of an invitation to participate in the virtual MMI, you will be required to pay the \$75.00 non-refundable interview fee by the deadline outlined in the MMI invitation.

### **Access and Equity Services for the MMI**

Applicants who think that they may require an accommodation based on disability, religion, family status, gender identity or any prohibitive grounds in order to participate in the MMI must submit a written request by the date outlined in the interview offer to the Admissions Office ([med.admissions@usask.ca](mailto:med.admissions@usask.ca)) describing the needed accommodation. Note that accommodation for the MMI is not linked to any subsequent need for accommodation should an applicant be accepted by the College of Medicine.

## VIII. CRITERIA FOR SELECTION

### **A. Ranking for Admission is Based on Academic Performance and Personal Qualities**

Additional documentation such as a CV, research papers, and letters of support will not be considered.

**Academic performance for Saskatchewan resident applicants** is based on the applicant's UAA and MCAT results.

Term 1 (fall term) - In the event of a deferred examination, supplemental examination, grade appeal, or grade change, you must inform the Admissions Office. The deadline to report such an item to the Admissions Office ([med.admissions@usask.ca](mailto:med.admissions@usask.ca)) is January 31. If the Admissions Office is not notified by the deadline, your file will be reviewed and the calculation of the UAA will be completed using the information available at the time of the file review for Term 1.

Term 2 (spring term) - In the event of a deferred examination, supplemental examination, grade appeal, or grade change, you must inform the Admissions Office. The deadline to report such an item to the Admissions Office is April 30. All coursework needs to be completed by April 30 (other than in the case of a professional college where courses started in January extend past April 30) with all final grades reported by June 30 (or July 15 in the case of

professional college program). Any offer of admission would be conditional upon the receipt of all official final grades confirming that all admission requirements have been met and that the degree used in the calculation of the UAA has been awarded.

**Personal attributes, for all applicants,** are assessed first by CASPer and then by the MMI and references.

## B. Weighting

The weighting of academic performance to MMI for Saskatchewan resident applicants will be as follows: 20% MCAT total score, 30% calculated UAA, and 50% MMI result. In all three categories, z scores are used.

## C. Transcripts

**ALL** applicants **MUST** upload their current unofficial transcript(s) from **ALL** universities and other post-secondary institutions **ever** attended other than the University of Saskatchewan.

If you are currently attending or have ever attended the University of Saskatchewan, we will access your transcript electronically; therefore, there is no need to upload a copy of your transcript at anytime throughout the application cycle nor send an official copy once your degree is completed.

If you have just recently enrolled in an institution and no transcript is yet available, you are required to submit a proof of enrollment in place of an official transcript.

Applicants will be asked to upload a copy of their unofficial transcript(s) **AFTER** the Term 1 (fall term) final grades are available.

Applicants that have been invited for an interview will be asked to upload an unofficial copy of their final transcript showing Term 2 (winter term) final grades.

Applicants that have been offered admission will be asked to upload an unofficial copy of their final transcript showing the degree awarded **AND** they must also have an official transcript sent directly from the institution to the College of Medicine, Admissions Office.

All admission offers are conditional upon receipt of an official final transcript showing the degree used in the calculation of the UAA having been awarded. Deadline to receive the final official transcript is June 30, 2022.

Foreign transcripts, if the UAA cannot be clearly calculated on a credit-weighted basis, then the transcript will be evaluated on a case-by-case basis with the Admissions Committee responsible for approval of the applied evaluation process. Transcripts in a language other than English must have an official translation attached. IQAS and WES transcript evaluations will not be considered.

All official transcripts must be sent directly from the institution to the Admissions Office. Transcripts that have passed through the applicant's hands (even if sealed) are deemed to be unofficial and will not be considered. Our preference would be to receive the transcript via email directly from the institution to [med.admissions@usask.ca](mailto:med.admissions@usask.ca). If your institution does not provide electronic copies of transcripts then please request that an official transcript be sent directly from the institution to the Admissions Office at: Admissions College of Medicine, Box 17 Health Sciences Building, University of Saskatchewan, 107 Wiggins Road, Saskatoon, Saskatchewan S7N 5E5.

## D. References/Recommendations

Personal attributes, for all applicants, are assessed in part by information provided by the recommendations from your references. You must provide the names of three references who have supervised you either as a research supervisor or have been your immediate supervisor in recent employment or in a volunteer role. Specifically, if within the last 5 years you have enrolled in or have completed an undergraduate research course and/or a post-graduate program, it is recommended that your immediate supervisor in each case be used as a reference. Employment or volunteer supervisors should be as recent as possible. Your references cannot be a relative or a friend.

**Reference/Recommendation feedback is not scored (i.e., the information provided by references is not used in ranking for admission).**

The request for References/Recommendations will be sent to applicants at the time of interview offers. Applicants must provide the following information on each reference in your application: First and Last Name; Position (e.g., Professor); Full details of how each reference has supervised you (i.e., their role vis a vis you in an employment, research or volunteer setting); Length of Time Known; Email; and Daytime Telephone.

**You need to ensure your references are aware and consent to being contacted by the College of Medicine for a 10-15 minute phone call during April and occasionally early May. Please ensure that you have their correct contact information.**

The Admissions Office will email references in late March or early April to schedule the reference call. The number of references contacted is at the discretion of the Admissions Office.

## E. File Review for Areas of Concern

The Admissions Committee can refuse admission based on any information within your file and your file starts with your first contact with the Admissions Office of the College of Medicine. The file review is done on all applicants invited to interview, with an emphasis on an applicant's suitability for a career in Medicine. This file review starts within the Admissions Office and then moves to a Standing Committee of the Admissions Committee, with files recommended by the Standing Committee going to the Admissions Committee for a final decision.

When either the Admissions Standing Committee or the Admissions Committee considers files for an applicant's suitability for a career in Medicine, only de-identified information is considered. Common reasons for the Admissions Committee ultimately invalidating an application include evidence of inability to understand and utilize instruction received in written and oral format, academic or non-academic misconduct, misrepresentation on the application, prior criminal behavior, input from referees, and unprofessional comments and/or behavior during the applicant's participation in our MMI or elsewhere.

If one or more of the above issues is found in a file, the Admissions Committee retains the right to actively seek further relevant information about the applicant, including, but not limited to, the Admissions Office contacting individuals with knowledge of the applicant, whom you may or may not have listed as references.

### **Academic and Non-Academic Misconduct Check Consent Form**

At the time of registration for the MMI, interviewees will be required to sign a consent form allowing the Admissions Office to contact any of the educational institutions they have attended regarding academic and non-academic misconduct on their part. **In submitting an application, you are consenting to the collection of any such supplemental information.**

## F. Selection

Candidates for Medicine are selected by the Admissions Committee of the College of Medicine based on the policies outlined in this document, by rank order and by admission pool. The Committee reviews applicants anonymously and all information is de-identified.

## G. Outcome

Interviewed applicants will be notified of the outcome of their application by May 31, 2022 at the latest. The Admissions Committee may set a MMI cut score and those interviewees not meeting the MMI cut score will be notified and their application will not be considered further. Applicants that have passed the MMI **will be informed that they: (i) are being offered a seat, (ii) have been wait-listed, or (iii) will not be offered a seat in the current admissions cycle. Decisions of the Admissions Committee are confidential; as such, applicants will not be provided with reasons for the decisions of the Committee.** Applicants placed on a wait-list will be notified about the final outcome at any time up to the first day of Orientation.

## H. Deferral of Seat

Saskatchewan resident (including IAP) applicants admitted to first year Medicine may be allowed to defer entry for a maximum of one year to allow for completion of studies (typically a Masters, PhD or a professional degree program). The written request ([med.admissions@usask.ca](mailto:med.admissions@usask.ca)) for a deferral must be submitted at the time of acceptance, along with a non-refundable acceptance deposit. Requesting a deferral does not guarantee that a deferral will be granted by the Director of Admissions.

## I. Selection of Training Site

Starting in 2022, the entire MD program (Years 1-4) will be offered at BOTH the Regina (40 students) and Saskatoon (60 student) campuses. Applicants will be asked to select ONE of the following options at the time of application:

- I want to apply for admission to the Regina campus ONLY
- I want to apply for admission to the Saskatoon campus ONLY
- I want to apply for admission to BOTH the Regina campus AND the Saskatoon campus (NOTE: applicants will have to choose ONE site to attend if accepted for admission at both campuses).

The policies, criteria and process of ranking applicants for admission will be the same at both campuses. Each campus will have a separate admissions offer-list and wait-list. Prior to offers being made, applicants who selected to be considered for BOTH the Regina AND Saskatoon sites will be asked which site is their preferred site. If you are offered a seat in your non-preferred site, you will remain on the wait-list for your preferred site. Accepting the seat at the non-preferred site will still allow you to accept a seat at your preferred site if a seat becomes available.

To ensure diversity at each campus, a 60:40 ratio of the different applicant pools will be maintained at the Saskatoon and Regina campuses, respectively.

NOTE: Applicants that are granted a one-year deferral will retain the site they are assigned at the time of the deferral being granted.

## J. Acceptance Deposit

Applicants who are offered admission must pay a non-refundable deposit of 10% of the tuition <https://students.usask.ca/money/tuition.php> by the deadline date of the acceptance of the offer. Candidates that withdraw their admission acceptance after paying the fee will forfeit the deposit.

## IX. MD/MBA DUAL DEGREE PROGRAM

The Edwards School of Business and the College of Medicine at the University of Saskatchewan have implemented a five-year program of study whereby an individual accepted into Medicine can also undertake a one-year MBA program. Up to two students a year who are accepted to do both degrees will be allowed a one-year deferral to Medicine to complete the coursework for the MBA. For details on the Edwards School of Business MBA Program see <https://grad.usask.ca/programs/business-administration.php>.

NOTE: You must first meet the requirements of your respective applicant pool and be accepted into Medicine before you will be considered for admittance into the MD/MBA dual degree program.

## X. STUDENTS WISHING TO TRANSFER

The College of Medicine at the University of Saskatchewan does not accept students wishing to transfer from another medical school into our program.

A Canadian citizen or permanent resident of Canada currently enrolled in another medical school who wishes to attend the College of Medicine **MUST** apply through the regular admissions process.

In compliance with the university-level Articulation and Transfer Credit Policy, the College of Medicine reserves the right to approve or deny requests for transfer credit or advanced standing in the Undergraduate Medical Education program (see <https://medicine.usask.ca/policies/transfer-student-policy.php>). **Requests for transfer credit or advanced standing will only be considered on a case-by-case basis post-admission to the Doctor of Medicine (MD) program at the University of Saskatchewan.** The process to determine transfer credit(s) may result in a cost incurred by the student.

## XI. ESSENTIAL SKILLS AND ABILITIES REQUIRED FOR THE STUDY OF MEDICINE

Applicants must familiarize themselves with the *Essential Skills and Abilities Required for the Study of Medicine* to determine if the practice of Medicine is possible as a career. Details are found at <https://medicine.usask.ca/policies/com-technical-standards.php>.

Applicants who potentially would require an accommodation during their undergraduate study of Medicine are encouraged to register with Access and Equity Services at the time of acceptance as entry into the program may need to be delayed to ensure proper development and implementation of an accommodation plan. Please also contact the Office of Student Affairs for the College of Medicine regarding your request for an accommodation at [med.studentaffairs@usask.ca](mailto:med.studentaffairs@usask.ca).

## XII. BACKGROUND CHECK

Applicants to the College of Medicine will be required to answer the following questions on the application form and provide detailed information for any question(s) answered “Yes”:

- *Have you ever been suspended, disqualified, censured, or had any disciplinary action taken against you as a member of any profession?*
- *Have you at any time been (i) subject to allegations of any academic or non-academic offence by a post-secondary institution, (ii) suspended, expelled, required to discontinue, or otherwise disciplined (including being denied readmission) for any academic or non-academic offence by a post-secondary institution, (iii) subject to informal resolution with respect to any academic or non-academic offence by a post-secondary institution, or (iv) cited for any professionalism issues at any time?*
- *Have you ever been convicted of a criminal offence (this includes any offence for which pardon has been received)?*
- *Have you been arrested or charged with any criminal offence, in Canada or elsewhere?*
- *To the best of your current knowledge and belief, are you currently under investigation for possible criminal conduct, in Canada or elsewhere?*

**Note:** If during the application cycle, anything changes in regards to how you answered the questions at the time of application, you are responsible for **immediately** notifying the Admissions Office ([med.admissions@usask.ca](mailto:med.admissions@usask.ca)).

All applicants accepting admission will be required to immediately request a criminal record check, including vulnerable sector screening, and submit the official results to the College of Medicine by the first day of Orientation of the year of entry. You should familiarize yourself with the Criminal Record Check Policy and Procedures document <http://medicine.usask.ca/documents/Admissions/CriminalRecordPolicy.pdf> under the Applicant Information Section. Positive results will be shared, including sharing a copy of the documentation, with: (i) the College of Physicians and Surgeons of Saskatchewan and (ii) other medical and/or educational institutions as required. In the event that you are found to be ineligible for an educational licence from the College of Physicians and Surgeons of Saskatchewan, the offer of admission will be revoked.

If you are a future applicant considering application to the U of S College of Medicine and answer *yes* to any of the preceding questions, you should contact the Admissions Office to have an informal review of the details of your background completed to determine future concerns for admission or licensure as a medical student.

## XIII. THE ADMISSIONS COMMITTEE

Selection of students for admission to the College of Medicine is the responsibility of the Admissions Committee. The Committee consists of the follow members (18 with vote):

- Chair (Director of Admissions)
- Dean of Medicine’s Designate
- Director of Northern Medical Services
- Seven Faculty Members
- Faculty Member/Site Director - Regina Campus
- Three undergraduate medical students (one representing each – Year 1, Year 2, and Year 3)
- College of Medicine Indigenous Coordinator
- The Dean or Designate of the Faculty of Science, University of Regina

- Two general public representatives - appointed by the Saskatchewan Urban and Rural Municipalities Associations, SUMA and SARM, respectively
- Representative, Student and Enrolment Services Division, University of Saskatchewan (non-voting)
- Administrative Coordinator - Admissions (non-voting)
- Program Manager - Undergraduate Medical Education (non-voting)

## XIV. ADMISSIONS APPEAL PROCESS

**NOTE: Applicants will have 5 business days from the date a negative application decision is emailed to launch an appeal of that decision.**

The Admissions Appeal Committee will review and decide upon applicant appeals of decisions made by the Admissions Committee. If you appeal, your appeal must include the completed and signed Appeal Form <http://medicine.usask.ca/admission-to-the-md-program/how-to-apply.php#AppealAdmission>. The appeal form and any supporting documentation must be submitted to the Chair of the Admissions Appeal Committee by email to [med.admissions@usask.ca](mailto:med.admissions@usask.ca) on or before the 5 business day deadline.

As outlined in the Policy on Admission to Degree Programs (<http://policies.usask.ca/policies/academic-affairs/policy-on-admission-to-degree-programs.php>) - Admission Decisions - Appeal of Admission Decisions, ratified by University Council on May 1, 2012 - “Grounds for an admission appeal shall be limited to: (1) unit procedural errors, (2) evidence that the information used in the assessment of the decision was wrong or incomplete, or (3) evidence that the assessment was not made according to the published admission qualifications and selection criteria. A failure by the applicant to provide accurate and complete information in accordance with the established admission qualifications and selection criteria shall not be grounds for an appeal. The decision of the Appeals Committee is final and no further appeal procedure will be entertained.” Any appeal launched must specify the ground(s) the appeal is based on to be considered further by the Admissions Appeal Committee.

## XV. ESTIMATE OF EXPENSES RELATED TO MEDICAL EDUCATION

	Year 1	Year 2	Year 3	Year 4
(Number of Months)	9	9	12	8
Tuition (2021-22)	\$18,718	\$18,718	\$18,718	\$18,718
USSU Fees (2021-22)	988	988	988	988
Student Medical Society Fees	300	-	-	-
College of Physicians & Surgeons Fees	20	-	-	-
SMA Fees	17	17	17	17
MCCQE Part I	-	-	-	900
CaRMS Process (including travel)	-	-	-	5,000
Criminal Record/Vulnerable Sector Check	70	-	70	-
Books <sup>#</sup>	500	500	500	500
Equipment	250	-	-	-
Electives	-	-	-	8,000
Rotations Outside Saskatoon/Regina	300	600	1,500	1,500
Travel <sup>+</sup>				

NOTE: Housing and living expenses are not included in this table.

<sup>#</sup>Amount is variable depending on the usage of EBooks, library loans, online subscriptions, used books, and purchased textbooks.

<sup>+</sup>Travel expenses are variable and will depend on, for example, the clinical experiences chosen, student interest group involvement, conference attendance, and personal travel.
