

Education Scenarios and Questions

(To be included in the portfolio for the Foundations Intro Unit)

Please write a brief (500 word) response to 3 of the following 4 questions. Discuss your responses with your Foundations Unit advisor. Modify your initial responses to reflect any changes that result from the discussion. Submit your responses to your eportfolio.

1. Describe a theory, framework or education principle that you regularly use in your education practice. How does it influence your work?
2. What key theories or education principles are linked to work-based learning? How do they support or explain the effectiveness of learning in this context?
3. How do you make your teaching learner-centered? What are the challenges or enablers?
4. How is quality maintained in an education program that you are involved in? Include internal and external measures in your response.
