

Friday, June 9, 2023

9am – 2pm

Workshop from 3-4pm

Virtual Event

RESEARCH, INNOVATION AND SCHOLARSHIP IN EDUCATION

Oral Presentations & Electronic Posters: Join us for our Faculty Development's Research, Innovation and Scholarship in Education event. At RISE you can see and discuss medical education research projects and findings to medical students, residents, faculty and staff who share your interest in medical education research and scholarship here at the University of Saskatchewan. **Registration is free.**

Plenary Presentation by: Dr. Viren N. Naik MD MEd MBA FRCPC, Chief Assessment Officer, Medical Council of Canada.

Mini Plenary and Post-Event Workshop: Dr. Shelley Ross, PhD, Past President, Canadian Association for Medical Education. Director, Research and Innovation, CBAS Support Program. Department of Family Medicine, Faculty of Medicine & Dentistry.

*Note the workshop will be offered virtually as well as in-person at the University of Saskatchewan Health Sciences Building.

More details to come!

Friday, June 9, 2023

9am – 2pm

Workshop from 3–4pm

Virtual Event

Overall Event Objectives

By the end of this event, participants will be able to:

- Describe medical education research and scholarship at the University of Saskatchewan
- Network with others who share interest in medical education and scholarship
- Create collaborations / communities of practice that will support medical education research and scholarship in the CoM

Plenary: The Leadership We Need for Healthcare Education & Scholarship: It's in All of Us

By the end of this session, participants will be able to:

- Understand the nuance between leadership and leader.
- Appreciate the leadership journey in healthcare, education, and scholarship.
- Discuss success factors in developing leadership competencies.

Mini Plenary: Improving and advancing postgraduate health professions education through research and scholarship

By the end of this session, participants will be able to:

- Describe different types of research and scholarship in health professions education
- Outline ways in which research can contribute to improvement of teaching and assessment
- Compose a research question that will allow them to identify or address a gap or need in their own education program

Workshop: What if program evaluation was exciting instead of scary (or boring)? Approaching continuous quality improvement from a curiosity perspective

By the end of this session, participants will be able to:

- Discuss the relationship between program evaluation and quality improvement
- Describe at least two program evaluation models.
- Show how setting the right questions in planning for program evaluation enhances relevance and utility of findings
