

University Library Resources & Services that Support Medical Education Research & Scholarship

Research Guides <http://libguides.usask.ca/>

A variety of subject and topic based guides are available on the Library’s website, including:

By Subject	General Topics
Biomedical Sciences	Citation Style Guides
Education	Copyright at the University Library
Community Health & Epidemiology	Data
Medicine – Clinical Medicine	Open Access
Public Health -- One Health	Predatory Publishers
Physical Therapy	Research Metrics

Liaison Librarians <https://library.usask.ca/contact.php#Librarians>

Liaison Librarians are the university community's link to the collections and services of the library. They...

- select library materials in their assigned subject areas
- teach library research skills individually or in groups
- provide research assistance ("reference")
- collaborate on synthesis review projects and/or grant applications with faculty and graduate students

Distance and Distributed Library Services <https://library.usask.ca/ddls/index.php>

The Leslie and Irene Dubé Health Sciences Library offers specialized services for faculty and students working and learning outside the UofS campus.

Desktop Delivery of Journal Articles from Other Libraries

Changes to Canadian Copyright Law has enabled the University Library to provide electronic delivery of journal articles to your desktop. You will receive an email to your usask.ca account with a link, login, and password to access the requested article.

Library Orientation Sessions for New Faculty

Please contact your liaison librarian to arrange for an orientation to the University Library’s resources and services <https://library.usask.ca/contact.php#Librarians>
