

When you do use a PowerPoint presentation, allow your presentation to complement the material you deliver. The slides should not be the script you follow. Instead, use the slides to highlight key points. Use photos, illustrations, or videos to bring meaning to the content you are sharing. Use vivid examples, clinical descriptions of the lecture content, and real case scenarios to show the students the real-world application of the content.

Help is available! There are many resources within the College and University and some online.

- **Attend a faculty development session or request an individual consultation about innovative teaching options** – phone (306) 966-5171 or go to **Faculty Development**
- **The Gwenna Moss Centre for Teaching and Learning**
- **A list of practical tips for creating an engaging lecture**
- **FOAM**
- **Making Lectures More Meaningful to Students**
- **Learn more about effective Graphing Tools**
- **Learn more about how to use Visual Scripts**

**If you are doing something “out of the ordinary” please notify the A/V support team ahead of time so they can plan for any extra support.**
