

## Practice Organizing an Instructional Session

### Group Task

Given an assigned competency which medical students are required to achieve upon graduation, create a teaching session, including appropriate rotational objective(s), set, body, & closure that will help the learner develop the knowledge, skill, or attitude they require.

Note: Remember that objectives are steps to achieving the competency (See pages 12 - 14).

Ensure that your objective is:

Student Centered

Measurable

Achievable

Relevant

Timely
